- ◆ Urban traffic solution for Start-stop systems and hybrid vehicles
- ◆ Workshop solutions for Automatic Transmissions maintenance
- ◆ Visit us at Booth Hall 2 Booth 2F 76

Shanghai, China

### Solution for hybrid vehicles and start-stop automatic in urban traffic

Start-stop systems increases engine wear up to 10 times and urban traffic test it to the fullest. BIZOL Green Oil+ is a cutting-edge, fully synthetic motor oil and Made in Germany. It is guaranteed to offer the best possible protection against the wear-and-tear caused by congested traffic.

Using an original combination of PAO, API Group V and an effective additive package, BIZOL created this oil so that car lovers can take proper care of their vehicle under the tough conditions of modern road. Use our expertise and innovative thinking to be professional while driving.

### A complete solution for Automatic Transmission maintenance

Many of the vehicles in China have an automatic transmission. That means there is a big opportunity to make business with the change of ATF-Fluids. The car manufacturer advice the car owner of cars with Automatic Transmission to change the fluid after 50.000 km.

Within our all in one solution we can offer you our outstanding ATF Machine with a complete adapter kit for all car manufactures. But that´s not all. In addition we also provide you with our high performance ATF-Fluids and our BIZOL ATF Cleaner+ for extending the transmission

## PRESS RELEASE

service life.

The machine features an exclusive electronic control system that lets you replace ATF fluid without having to open the completely empty gearbox, regardless of the difference in temperature between the fresh fluid and the used fluid. In addition to controlling the operation of the pump of the ATF, the machine's software monitors the fluid replacement operation.

### About BIZOL
