

GDI Power Clean

BENEFITS

- ✓ Effectively removes deposits on the surface of the injector needle tip and throughout the combustion chamber
- ✓ restores the original performance of the engine
- ✓ ensures regular engine running and reduces fuel consumption
- ✓ reduces maintenance costs
- ✓ ensures environmentally friendly, low-pollution combustion
- ✓ reduces the risk of engine damage due to LSPI (Low Speed Pre-Ignition).

PRODUCT DESCRIPTION

BIZOL GDI POWER CLEAN is a fuel additive to restore the performance of engines with gasoline direct injection: GDI, CGI, TFSI, TBI. Clean injectors are essential for the engine performance. Clogged injectors will not get the right amount of fuel it needs. The additive contains detergent based on Polyetheramine. It removes deposits and prevents the formation of residues resulting in restored engine performance. Significantly reduces the LSPI effect.

GDI Power Clean

Available Packages

Size	Art. Nr	Languages
0.5 L	98017	DE / EN / ES / RU / RO / PL / SLO

Technical Data

Name	Value	Method
Appearance	liquid	
Colour	yellowish, clear	
Density at 15 °C	830 kg/m³	DIN EN ISO 12 185
Flash Point	>61 °C	

How to use

BIZOL GDI POWER CLEAN can be used directly into the fuel tank at each service or every 10.000km. Ensure the tank is at least 1/3 full — one 500 ml can is sufficient for up to 70 liters of fuel.
