Benefits

1. supports continuous DPF regeneration
2. reduces soot built-up
3. prevents malfunctions of the DPF
4. extends DPF lifetime
5. reduces pollutant emissions

Product Description

BIZOL DPF Regeneration + d61 is a powerful preventive measure additive designed to prolong the lifetime of the Diesel Particulate Filters in any diesel engine. It reduces soot built-up and ensures continuous DPF regeneration, especially on short distances and city traffic.

Available Packages

250 ml Art. 8009
