

Benefits

1. rapid and gentle cleaning
2. allows for optimal shifting performance
3. does not pollute the environment

Product Description

BIZOL ATF Cleaner+ a50 is suitable to be used before AT fluid changes for all automatic transmissions. It dissolves disruptive deposits and residues providing optimal shifting performance and in this way extending the transmission service life.

Available Packages

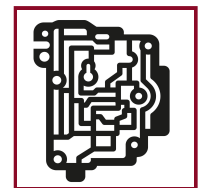

250 ml Art. 8005

Technical Data

Name	Value	Method
Colour	light brown	
Appearance	liquid	
Viscosity at 40 °C	8,0 mm ² /s	ASTM D 7042
Flash Point (Cleveland)	140 °C	ISO 2592
Density at 20°C	0,90 g/cm ³	

WITH

WITHOUT

How to use

A 250 ml can is efficient for up to 12 litres of fluid. Add BIZOL ATF Cleaner+ a50 to the automatic transmission fluid at operating temperature (approx. 40°C) before the fluid change, then let the engine run for 10-15 minutes. Shift through all gears for the first 5-6 minutes. Then change the fluid and the ATF filter. The additive can also be used to flush steering gear systems (Power Steering) before changing the fluid.
