

Benefits

1. effective lubrication for plastic and rubber parts
2. excellent corrosion protection
3. excellent mechanical and thermal stability

Product Description

BIZOL Silicone+ L51 is a spray to lubricate and protect plastic or rubber parts. It is moisture repellent, pH-neutral and weather resistant. It prevents freezing and drying out of rubber parts and creaking and squeaking of plastic parts providing outstanding mechanical and thermal stability. It comes with an additional spray nozzle and an extension tube in the cap.

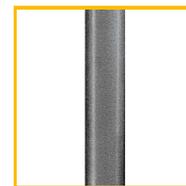

Available Packages

400 ml Art. 80011

Technical Data

Name	Value	Method
Basis	Polydimethylsiloxane	
Colour	Transparent	
Scent	Characteristic	
Relative density at 20°C	0,630 g/ml	
Refractive Index at 25°C	1,403	
pH-Value	Neutral	
Temperature resistant	-50-+200 °C	

WITH

WITHOUT

Applications

Spray on door seals and rubbers, creaking plastic parts, dashboards, bumpers, sunshine roofs, rails (caravan, blinds), sliding doors, saw blades, moulds.

Usage

The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol. Apply silicone spray in a thin layer. Optimum lubrication is obtained after evaporation of the solvent (approximately 1 minute).
