Name	Value	Method
Basis	Surfactant solution	
Scent	Orange	
Appearance	white foam	
Density at 20°C	0,87 g/cm <sup>3</sup>	

WITH

WITHOUT

## Applications

Spray it into the Air Conditioning inlet.

## Usage

The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol. Before treatment, switch off the engine and the electrical installations. Apply the foam to the condenser of the air conditioning by means of the enclosed adapter. Insert the adapter about 30 centimetres into the air inlet of the air conditioning and completely empty the can. The location of the air inlet differs per brand. After applying, do not switch on the engine or the electrical installation
