

Benefits

1. cleans completely injection system and protects against corrosion
2. increases the cetane number
3. reduces emissions and consumption of fuel

Product Description

BIZOL Diesel System Clean+ d60 dissolves deposits in the diesel injection system and in the combustion chamber caused by low quality fuel and high fuel sulfur content. Increases the cetane number and improves the ignition performance therefore saving fuel. Protects diesel systems from corrosion and wear. Reduces wear through extra lubricity molecules. By reducing emissions it is environmentally friendly. It is suitable for all Diesel Common Rail and Diesel Injector Unit Systems.
