

Benefits

1. non-conductive
2. residue-free
3. comes with an extra spray nozzle and extension tube

Product Description

BIZOL Contact Clean+ c32 is a spray with high dissolving properties to clean electrical contacts. It is non-conductive and non-corrosive and leaves no residue. It has a powerful jet spray and because of its special spray nozzle it can be used upside down. It comes with an additional spray nozzle and an extension tube in the cap.

WITHOUT

Applications

Spray on switches, batteries, contact points, printed circuit board switches, multiple sockets.

Usage

The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol. Switch off electrical installations before treatment. Spray the parts to be treated until the contamination has disappeared. Contaminated contact cleaner should be regarded as chemical waste. Only switch on the electrical installation after evaporation of the solvent (minimum of 15 minutes).
