

Rubber & plastics

BIZOL PRESS RELEASE

plastic panels and parts are squeaking

05/05/2022

Rubber and plastic parts become porous at cold temperatures or dry out after a while.

BIZOL Silicone+ L51

WARNING! Do not use on steering wheel, pedals or motorcycle bench.

- prevents freezing and shrinkage of rubber seals and parts
- eliminates and prevents squeaking of plastic panels and parts
- forms protective water repellent film resistant to weather conditions
