

Brake system

BIZOL PRESS RELEASE

vibration, squeaking, seized parts

05/05/2022

sticking or seizing of sensitive vehicle components such as brake parts, exhaust parts, spark plugs, screwed connections because of heat impact makes it difficult to dismantle them

BIZOL Ceramic+ L55

WARNING! The ceramic spray must not be applied to the friction surfaces of the brake pads or the brake disc.

- easy dismantling after effective lubrication of sensitive vehicle components operating under high temperatures, such as brake parts, exhaust parts, spark plugs, screwed connections
