SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
BIZOL ATF Cleaner+ a50

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses
additive for mineral oil products

1.3 Details of the supplier of the safety data sheet
Supplier (manufacturer/importer/only representative/downstream user/distributor)
BIZOL Germany GmbH (former BITA Trading GmbH)
Street: Martin-Buber-Straße 12
Postal code/city: 14163 Berlin
Telephone: + 4930 804869-0
Telefax: + 4930 804869-22
Information contact: email: support@bizol.de

1.4 Emergency telephone number
Giftnotruf Nord +49-551-19240

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]
Asp. Tox. 1 ; H304 - Aspiration hazard : Category 1 ; May be fatal if swallowed and enters airways.

2.2 Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms

Health hazard (GHS08)
Signal word
Danger

Hazard components for labelling
DISTILLATES (PETROLEUM), HYDROTREATED LIGHT NAPHTHENIC ; CAS No. : 64742-53-6

Hazard statements
H304 - May be fatal if swallowed and enters airways.

Precautionary statements
P301+P310 - IF SWALLOWED: Immediately call a POISON CENTER/doctor/....
P331 - Do NOT induce vomiting.
P501 - Dispose of contents/container as per local and national regulations.

2.3 Other hazards
None

SECTION 3: Composition/information on ingredients
3.2 Mixtures

Hazardous ingredients
DISTILLATES (PETROLEUM), HYDROTREATED LIGHT NAPHTHENIC ; REACH registration No. : 01-2119480375-xxxx ; EC No. : 265-156-6; CAS No. : 64742-53-6

Weight fraction : ≥ 75 - < 100 %

Classification 1272/2008 [CLP] : Asp. Tox. 1 ; H304

Additional information
Full text of H- and EUH-phrases: see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information
Observe risk of aspiration if vomiting occurs.

Following inhalation
Provide fresh air. Remove victim out of the danger area.

In case of skin contact
Wash immediately with: Soap Immediately remove all contaminated clothing.

After eye contact
Flush with plenty of water (10 - 15 min.). Call a physician. Consult an ophthalmologist.

After ingestion
Do NOT induce vomiting. Let water be drunken in little sips (dilution effect). Keep at rest. Call a physician immediately.

4.2 Most important symptoms and effects, both acute and delayed
Frequently or prolonged contact with skin may cause dermal irritation.

4.3 Indication of any immediate medical attention and special treatment needed
None

SECTION 5: Firefighting measures

5.1 Extinguishing media
Suitable extinguishing media
Carbon dioxide (CO2) Sand Foam Dry extinguishing powder Water spray jet

Unsuitable extinguishing media
High power water jet

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products
In case of fire may be liberated: Carbon dioxide (CO2) Carbon monoxide Nitrogen oxides (NOx) Pyrolysis products, toxic

5.3 Advice for firefighters
In case of fire: Wear self-contained breathing apparatus. Protective clothing.

Special protective equipment for firefighters
Burning produces heavy smoke.

5.4 Additional information
Move undamaged containers from immediate hazard area if it can be done safely. Do not allow run-off from fire-fighting to enter drains or water courses.

SECTION 6: Accidental release measures
6.1 **Personal precautions, protective equipment and emergency procedures**
Take the precautions customary when handling chemicals. Keep away from ignition sources on account of the organic solvent content and air room well. Do not inhale vapours.

6.2 **Environmental precautions**
Do not allow to enter into surface water or drains. Prevent spread over a wide area (e.g. by containment or oil barriers). Take up with a liquid absorbing material and proceed according to the waste disposal regulations.

6.3 **Methods and material for containment and cleaning up**
Remove mechanically, take-up residues with absorbing material.

   **For cleaning up**
   Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents).

   **Other information**
   Clear spills immediately.

6.4 **Reference to other sections**
None

### SECTION 7: Handling and storage

7.1 **Precautions for safe handling**
Take the precautions customary when handling chemicals. Only use the material in places where open light, fire and other flammable sources can be kept away.

   **Protective measures**
   Avoid: Inhalation of vapours or spray/mists Skin contact Eye contact Wear personal protection equipment (refer to section 8). Use only in well-ventilated areas.

   **Measures to prevent fire**
   This material is combustible and can be ignited by heat, sparks, flames, or other sources of ignition (e.g. static electricity, pilot lights, or mechanical/electrical equipment).

   **Measures to prevent aerosol and dust generation**
   Ensure adequate ventilation of the storage area.

   **Environmental precautions**
   See section 8.

   **Advices on general occupational hygiene**
   When using do not eat, drink, smoke, sniff.

7.2 **Conditions for safe storage, including any incompatibilities**
Keep container tightly closed in a cool, well-ventilated place. Avoid heating over 50°C. Ensure adequate ventilation of the storage area. Restrict access to stockrooms.

   **Hints on joint storage**
   Storage class (TRGS 510) : 10
   Keep away from
   Strong acid Strong alkali Oxidising agent

   **Further information on storage conditions**
   Keep only in the original container in a cool, well-ventilated place.
   Protect against : Heat. UV-radiation/sunlight

7.3 **Specific end use(s)**
None
SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Recommended monitoring procedures

Method: Test tube

8.2 Exposure controls

Personal protection equipment

None, but avoid breathing vapours if possible. If workplace limits are exceeded, a gas mask approved for this purpose must be worn.

Eye/face protection

Eye glasses with side protection

Suitable eye protection

Use safety glasses.

Required properties

DIN EN 166

Remark

Take the precautions customary when handling chemicals.

Skin protection

Solvent-resistant protective gloves must be worn. Gloves, for example PVC at least 0,8 mm thick. See protective gloves instruction sheet.

Hand protection

Suitable gloves type: Disposable gloves.

Suitable material: PVC (Polyvinyl chloride)

Unsuitable material: Thick fabric

Wearing time with occasional contact (splashes): 4 hrs

Recommended glove articles: DIN EN 374

Additional hand protection measures: Do not wear gloves near rotary machines and tools. Use gloves only once. Breakthrough times and swelling properties of the material must be taken into consideration. Wear cotton undermitten if possible. Take recovery periods for skin regeneration.

Body protection

For the protection against direct skin contact, body protective clothing is essential (in addition to the usual working clothes).

Suitable protective clothing: Overall

Recommended material: Natural fibres (e.g. cotton)

Remark: Only wear fitting, comfortable and clean protective clothing.

Respiratory protection

Respiratory protection necessary at: exceeding exposure limit values

Suitable respiratory protection apparatus

Combination filtering device (EN 14387) A

Remark

The filter class must be suitable for the maximum contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing apparatus must be used.

General health and safety measures

Wash hands before breaks and after work. When using do not eat, drink, smoke, sniff.

Occupational exposure controls

Technical measures to prevent exposure

See section 7. No additional measures necessary.

Environmental exposure controls
8.3 Additional information
Preventive industrial medical examinations are to be offered.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance
Physical state: liquid
Colour: light brown

Odour
like: Mineral oil.

9.2 Other information
None

SECTION 10: Stability and reactivity

10.1 Reactivity
None, if handled according to order.

10.2 Chemical stability
None, if handled according to order.

10.3 Possibility of hazardous reactions
None, if handled according to order.

10.4 Conditions to avoid

Technical measures to prevent exposure
See section 7. No additional measures necessary.
P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

10.5 **Incompatible materials**
Reaction with oxidizing agents possible.

10.6 **Hazardous decomposition products**
When exposed to high temperatures may produce hazardous decomposition products such as carbon monoxide and dioxide, smoke, oxides of nitrogen.

### SECTION 11: Toxicological information

11.1 **Information on toxicological effects**

**Acute effects**
Based on available data, the classification criteria are not met.

**Irritant and corrosive effects**
No information available.

**Sensitisation**
No information available.

**CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)**

**Carcinogenicity**
No information available.

**Germ cell mutagenicity**
No information available.

**Reproductive toxicity**
No information available.

**STOT-single exposure**
No information available.

**STOT-repeated exposure**
No information available.

**Aspiration hazard**
May be fatal if swallowed and enters airways.

11.2 **Additional information**
Inhalation/eye contact: in high concentrations irritating to the mucous membranes, narcotic effect and influence on power of reaction and loss of coordination possible.

### SECTION 12: Ecological information

12.1 **Toxicity**

**Aquatic toxicity**
No information available.

12.2 **Persistence and degradability**
The product is difficult to biologically degrade. May be separated mechanically in purification plants.

12.3 **Bioaccumulative potential**
May accumulate in organisms.

12.4 **Mobility in soil**
No information available.

12.5 **Results of PBT and vPvB assessment**
No information available.

12.6 **Other adverse effects**
No information available.
12.7 Additional ecotoxicological information
Do not empty into waters or drains.

Additional information
Product may not be released into water without pre-treatment (biological sewage plant).

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Product/Packaging disposal
- Waste codes/waste designations according to EWC/AVV
- Waste code product
  - Waste code product List of proposed waste codes/waste designations in accordance with AAV
- Waste treatment options
  - Appropriate disposal / Product
    - Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.
  - Appropriate disposal / Package
    - Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of.

SECTION 14: Transport information

14.1 UN number
No dangerous good in sense of these transport regulations.

14.2 UN proper shipping name
No dangerous good in sense of these transport regulations.

14.3 Transport hazard class(es)
No dangerous good in sense of these transport regulations.

14.4 Packing group
No dangerous good in sense of these transport regulations.

14.5 Environmental hazards
No dangerous good in sense of these transport regulations.

14.6 Special precautions for user
None

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
- National regulations
- Water hazard class (WGK)
  - Class : 2 (Hazardous to water) Classification according to VwVwS
- Other regulations, restrictions and prohibition regulations
  - No flammable liquid according to BetrSichV.

15.2 Chemical safety assessment
For this substance a chemical safety assessment has not been carried out.

SECTION 16: Other information

16.1 Indication of changes
16.2 Abbreviations and acronyms
EAK: Europäischer Abfallartenkatalog (EWC: European Waste Catalogue)
AVV: Abfallverzeichnisverordnung (List of waste regulation)
TRGS: Technische Regeln für Gefahrstoffe (Technical Rules on Hazardous Substances)
VwVwS: Verwaltungsvorschrift wassergefährdende Stoffe (Administrative Regulation of substances hazardous to water)
ADR: Accord européen relatif le transport des marchandises dangereuses par Route (European agreement concerning the international carriage of dangerous goods by road)
IMDG: International Maritime Dangerous Goods Code
IATA: International Air Transport Association
GHS: Globally Harmonised System of Classification, Labelling and Packaging of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstract Service (Division of the American Chemical Society)
DNEL: Derived No Effect Level (REACH)
PNEC: Predicted No Effect Concentration (REACH)
LC50: Lethal concentration, 50 percent
LD50: Lethal dose, 50 percent
PBT: Persistent, Bioaccumulative and Toxic
SVHC: Substances of Very High Concern
vPvB: very Persistent and very Bioaccumulative
See overview table at www.euphrac.eu.

16.3 Key literature references and sources for data
None

16.4 Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]
Calculation method.

16.5 Relevant H- and EUH-phrases (Number and full text)
H304 May be fatal if swallowed and enters airways.

16.6 Training advice
None

16.7 Additional information
None

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
